

## Cancer Strikes Anywhere, Anytime, Anyone

The journey from cancer diagnosis through treatment is an overwhelming experience for patients and families. The Bob Perks Cancer Assistance Fund helps to ease the financial burdens of cancer patients so they can focus on treatment and recovery.

- We serve patients in six counties: Blair, Centre, Clearfield, Huntingdon, Juniata and Mifflin.
- We have raised and paid out over \$2.5 million in aid since 2006.
- We have a formal application process through medical referral sources.
- Applicants can apply up to 4 times each year and no qualified applicant has ever been turned down.
- We help with costs of daily living such as rent, utilities, food, gas and more.
- We work hard to be excellent stewards of every donated dollar.

## American Red Cross Mid-Central Pennsylvania

*"The siren sounds in the middle of the night in our community. Those that hear the sound are trained to respond immediately. As the fire fighters round the corner and see a home fully engulfed by flame, the family is standing on the curb safely. The difference with this family is that the home was part of the smoke alarm installation program with the American Red Cross, which not only provided smoke alarms at no charge, but important safety education which included an evacuation plan of their home. This situation was even more personal as this home was part of a United Way Day of Caring."*

United Way of Mifflin-Juniata | 13 E 3rd St, Lewistown, PA 17044
